

Little Pips Pre-School
At the Camden Centre

Care and Education for 2-5 year Olds

Internet Safety / Acceptable Use Policy (AUP)

Policy statement

At Little Pips Pre-School we understand that ICT, digital and mobile technology resources are now regarded as essential to support learning, teaching and personal and social development. They form part of an essential life skill. When using technology with young children and adults in their setting, professionals need to ensure that the resource is used safely and responsibly.

Procedures

Why is internet use important?

- The internet can be used to support learning as well as for social and personal development activities. It can motivate, engage and develop self-esteem, confidence and as a tool for the development of social capital. It is now regarded as a necessary tool, in settings, for practitioners and children
- Internet access is an entitlement for children and young people who show a responsible and age appropriate approach to its use
- The internet is an essential element for education, business and social interaction. Little Pips Pre-School has a duty to provide children and young people with quality Internet access as part of their experience.
- The internet is part of everyday life. Knowledge and experience of information and communication technology (ICT) should be considered as essential. Developmentally appropriate access to computers and the internet in the early years contributes significantly to children and young people's enjoyment of learning and development.
- Children and young people learn most effectively where they are given managed access to computers and control of their own learning experiences; however, such use carries an element of risk. Early years practitioners, their managers and volunteers, alongside parents and carers, should make children and young

- people aware of the potential risks associated with online technologies. This empowers them with the knowledge and skills to keep safe, without limiting their learning opportunities and experiences

How will internet use enhance learning and personal and social development?

- Internet access for children and young people will be designed for educational aspects of social and developmental use and will include age appropriate filtering
 - Age appropriate guidance about appropriate Internet use will be part of the support for children and young people
- All practitioners should guide children and young people in online activities that will support their developmental and learning outcomes.

How will internet access be authorised?

- All users of the internet will need to agree to responsible internet use
- For younger users, access to the internet will be closely supervised by an adult allowing access to specific and agreed sites only.

Responsibilities

The Designated Safeguarding Officer **Adriana Johnson** is responsible for online safety, and manages the implementation of this Policy.

The Designated Person for Safeguarding will ensure:

- Day to day responsibility for online safety issues and as such will have a leading role in implementing, monitoring and reviewing this Policy.
- All ICT users are aware of the procedures that must be followed in the event of a potentially unsafe or inappropriate online incident taking place.
- The recording, monitoring and filing of reports in the event of a potentially unsafe or inappropriate online incident. This should include the creation of an incident log which should be used to inform future online safety practice.
- All necessary actions are taken to minimise the risk of any identified unsafe or inappropriate online incidents reoccurring.
- Regular meetings take place with the Committee to discuss current issues, review incident reports and filtering/change control logs.
- Effective training and online safety advice is delivered and available to all early years practitioners and their managers and volunteers. This includes advisory support to children, young people, parents and carers as necessary.
- Timely liaison, where appropriate, with other agencies in respect of current online safety practices and the reporting and management of significant incidents.

■

How will filtering be managed?

- The designated safeguarding lead Adriana Johnson will manage the permitting and banning of additional web sites identified by Little Pips Pre-School.
- Little Pips Pre-School will work in partnership directly with parents/carers and Kent County Council to ensure systems to protect children and young people are reviewed and improved.
- The designated safeguarding lead will ensure that regular checks are made to ensure that the filtering methods selected are appropriate, effective and reasonable.

Any material that the setting or organisation believes is illegal must be referred to the Internet Watch Foundation (<http://www.iwf.org.uk>)

How will the risks be assessed?

- In common with other media such as magazines, books and DVDs, some material available via the Internet is unsuitable for children and young people. Little Pips Pre-School will take all reasonable precautions to ensure that users access only appropriate material. However, due to the international scale and linked nature of internet content, it is not possible to guarantee that unsuitable material will never appear on a computer. Little Pips Pre-School cannot accept liability for the material accessed, or any consequences of internet access but will uphold high standards to try to prevent it.
- If a child or young person accidentally accesses inappropriate material, it must be reported to an adult immediately. Appropriate action should be taken to hide or minimise the window. The computer or device should not be switched off, nor the page closed, in order to allow investigations to take place. All such incidents must be reported to the Senior Designated Person for Safeguarding; who must ensure a report of the incident is made and that any further actions deemed necessary are taken.
- The use of computer systems without permission or for inappropriate purposes could constitute a criminal offence under the Computer Misuse Act 1990
- The designated safeguarding lead at Little Pips Pre-School will have an awareness of current e-safety advice and will embed this within the work with children and young people
- All practitioners for Little Pips Pre-School will ensure that this policy is implemented and compliance with the policy monitored.

How should website and social media content be managed?

- Written permission from parents or carers will be obtained before photographs of children and young people under the age of 16 are published on the setting's web site
- Full names of children and young people should not be used anywhere on the website, first names will only be used in association with photographs
- Where audio and video are included (e.g. Podcasts and Video Blogging) the nature of the items uploaded will not include content that allows the children and young people, under the age of 16 to be identified

-
- The designated safeguarding leading will take overall editorial responsibility and ensure that content is accurate and appropriate.

Managing e-mail

- Little Pips Pre-School will promote safe use of e-communications to other practitioners, professionals, parents/carers, children and young people
 - Young people should use email in an acceptable way. Sending images without consent, messages that cause distress and harassment to others are considered significant breaches of appropriate conduct and may be classed as bullying
- E-mails sent to an external organisation should be written carefully and authorised before sending, in the same way as a letter written on headed paper.

On-line communications and social networking

- Underage children and young people will not be allowed access to social networking sites. The minimum age limit for accessing social networking sites is usually 12.

Mobile technologies

- Little Pips mobile phone is used for business purposes by Little Pips Pre-School staff. The setting mobile phone is allowed within the rooms if it supports working with children and young people, e.g. use to capture images of activities for exhibition/display. Information will be downloaded and deleted immediately and this will be checked by the designated safeguarding lead on a weekly basis.
- Parents, other staff members and older children will be asked not to use personal mobiles for calls or photographs whilst in the setting and provision will be made to safely store personal phones.
- For Further information see 'Use of mobile phones and cameras' Policy

Introducing the policy to children and young people

- Age appropriate rules and rights for Internet access will be posted in all areas where computers and tablets are used
- Children and young people must be informed that Internet use is monitored (no child is left unsupervised with a tablet)
- The teaching of e-safety will be part of the provision for all children and young people. It will include key messages that are age and maturity appropriate, such as keeping personal information safe, dealing with cyberbullying, knowing who to tell if there is inappropriate content/contact on-line.

Families, carers, setting managers and e-safety

- Adults' attention should be drawn to the e-safety policy in newsletters, Little Pips Pre-School Baby's Days online software, family information pack and on the setting's website
- Parents sign an agreement within their contract on registration that they will not download or use photos from Baby's Days for any purpose other than their own viewing (see Baby's Days Policy)
- Regular information should be provided to parents and carers about how to ensure they can work with Little Pips Pre-School to ensure resources are used appropriately
- A partnership approach with parents and carers should be encouraged. This could include awareness raising meetings, newsletters and hands-on sessions and suggestions for safe internet use at home Advice on filtering systems, educational and leisure activities that include responsible use of the internet should be made available to parents
- Interested parents should be referred to organisations such as CEOP, Child net International, PIN, Parents Online and NCH Action for Children.

Social Media Parental guide

- Staff are advised not to accept invitations from parents to "friend" on social networking sites and to do so may put them in a difficult work position. We expect them to maintain a professional relationship with you that is not compromised by sharing information on a social networking site
- Similarly, we would ask you not to post information on your site that could affect other families and their children from our childcare setting. This particularly would apply if children's names or photographs were to appear in the context of our setting.
- We would always take legal advice if our setting were to be quoted in a defamatory way on a social networking site.

Consulting with practitioners and their inclusion in the e-safety policy

- All practitioners should be consulted about the contents of this policy to ensure that the use of the internet and mobile technologies supports their work with children and young people in a safe environment
- The consequences for internet and mobile phone/PDA/technology misuse should be clear so that all adults are confident to apply this should the situation arise (e.g. supervised access, withdrawal of access)
- The monitoring of internet use is a sensitive matter. Practitioners who operate monitoring procedures should be supervised by senior practitioners.
- Practitioner development in safe and responsible internet use will be provided as required by the setting.
- **All staff must sign and follow the E-safety Agreement and if this is not adhered to then disciplinary action may be taken.**

■

How will complaints be handled?

- Responsibility for handling incidents will be delegated to a the Manager, Adriana Johnson.
- Any complaint about practitioner misuse must be referred to the Designated Safeguarding Lead for Little Pips Pre-School. Allegations against staff will be handed to the Local Authority Designated Officer Tel no: 03000 410888.This may include any allegations made outside of the setting.
- Parents and children and young people will need to work in partnership with practitioners to resolve issues should they arise
- There may be occasions when the police must be contacted. Early contact could be made to establish the legal position and discuss strategies.
 - If a serious allegation is made against a staff member then Ofsted will be notified and procedures outlined in the ‘Safeguarding children and child protection’ policy will be followed.

Safeguarding and Welfare Requirement: Child Protection

Providers must have and implement a policy, and procedures, to safeguard children. These should be in line with the guidance and procedures of the relevant Local Safeguarding Children Board (LSCB).

This Policy was adopted on:23/06/2021.....
